Projects

Geovision Dispatch

May 2023 – October 2023

I'm responsible for the front-end development and maintenance processes of the Geovision Dispatch.

Personal Website [↗](#)

June 2023 – June 2023

I made my own personal website using ReactJS and TailwindCss.

Emotion Recognition For AI Assisted Student Counseling [↗](#)

November 2021 – June 2022

In this project, it is aimed that school counselors can accurately and objectively perceive the emotional state of students who do not show their emotional state, and eliminate negative situations in students' lives with positive psychology interventions and increase their social and academic success.
